I have been troubled with Erysipelas and Serofula all my life. Recently my limbs came out in red spots from the airs of my hand down to the mercat pimple. Some of them would fester a little, but mostly lire red, and the large spots looked more like raw best, and would raise up quite a little from the surface. There would be bliaters come as large as pert in different places with the rest. It was all over my limbs from my feet to my body, acrosi my shoulders, and my arms, hands and wrists had to be done up in cloths for weeds, and they would lich and burn as though I was after, and there was no sleep for me, and my limbs swelled a good deal. I tried three doctors, but did me no good. Finally a friend resommended Cutteria Rambotts, and my husband got them. I gave them a thorough trial, and they belied me right off. In three months time I was all well. Now this was three years ago this spring.
